# Flow Water Pitcher

WATER FILTER

**High-quality filtered water**

The “Flow” water pitcher provides high-quality drinking water by using a hollow fibre membrane to filter out bacteria. High-grade carbon material improves the taste of water, and silver ion technology prevents the growth of bacteria inside the cartridge. With a compact shape that can fit into your fridge for better taste and with lifetime indicator, the Flow water filter pitcher provides you drinking water at maximum convenience.

**Product features**

- › Ultrafiltration (UF) membrane filters down to 0.01 micron.
- › Anti-bacterial carbon
- › 5-stage in 1 encapsulated filter
- › Smart lifetime indicator lets you know when it is time to replace the cartridge.
- › Compact design conveniently fits into most fridge doors.

**Filter cartridge stages**

**Step 1**  
Micro Net - removes particles

**Step 2**  
Ion Exchange Resin

**Step 3**  
Silver Impregnaated Carbon

**Step 4**  
Micro Net - additional filtration

**STEP 5**  
Ultrafiltration Membrane

Type	Flow Pitcher
Article no.	204324
Material jug body	ABS Plastic*
Jug Capacity	1 Litre Filtration capacity
Height	230
Width	120
Depth	90
Weight	
Colour	Clear/White

The Flow water pitcher includes a filter for out of box use. Replacement filters come in groups of 2.
