BUFFER CYLINDERS

The SBP range of free-standing buffer tanks offer an ideal interface and collecting point for even the most diverse heating systems. This not only saves a lot of space, but also saves energy. With the SOL versions, it is also possible to integrate a solar thermal system.

Product features

- › Problem solver in complex hydronic heating systems
- › 100–1500 L capacity
- › Made in Germany
- › Compatible with all STIEBEL ELTRON hydronic heat pumps
- › Highly effective insulation for low heat losses
- › Can be combined with solar thermal systems (SOL models)
